Description of F/X Scene: We will be using one Roscoe vHazer with V Gazer haze juice at it minimum concentration. The hazer will remain off in between takes and only run during takes. We will dismiss all non-essential personal to a separate holding area away from the hazer. We will vent out the space in between takes to allow fresh air and masks will be available on set. We will also put out a safety notice for the hazer on the callsheet and film permit beforehand. The hazer will not set off the fire alarm as the location is aware we are using haze and we have worked with heavy haze on this stage before
